| NOTE: CLASSES BEGIN AT 7:30 AM TODAY! | |
| Class: 7:30 - 9:30 AM 2 CEU Chauncey Leggett and Jeffrey Williams | This session will offer a practical breakdown of what it takes to plan for short and long term investments. There will also be an opportunity to learn about the latest business tool developed specifically for the water well industry. When the tool is used to its fullest potential, your company will become more professional, more efficient and more profitable. This result will create more money in your pocket and more time to spend with your family. |
| Class: 9:35 - 10:35 AM 1 CEU Jason Gentry | GEOTHERMAL: (WAITING ON CLASS DESCRIPTION) |
| Class: 10:40 - 11:40 AM 1 CEU Jason Burger | The Usual Suspect: What is limiting your iron treatment This class will examine why air injection oxidation (AIO) is highly effective when applied in the right conditions for iron treatment. We will treat iron on the bench to better understand the role of oxygen, contact time, and mineral tank sizing and why system limitations are often driven by tank selection rather than media or chemistry. Attendees will gain insight into when AIO is the right solution and how choosing the correct tank size can significantly improve iron removal performance. |
